Safe from Covid in Petra

The students and personnel of the adult education centre of Kauniainen are protected as effectively as possible by providing a safe environment for studying and working. To accomplish it, **we suggest everyone follows these rules.**

- Come to class only if you are healthy and without symptoms.
- We have a strong recommendation to use a mask.
- Wash your hands with soap and warm water when arriving. Use disinfectant if you do not have the possibility to wash hands.
- Disinfectant is available in every classroom and in several places in the lobby.
- Only cough in a tissue or sleeve. Throw away the tissue immediately and wash your hands.

- Keep a distance of two meters in the classroom and lobby.
- Come to class just a little before teaching begins and leave immediately after class.
- Everyone cleans the props used beforehand.
- Only students are allowed to enter to avoid unnecessary contact.
- Use the Koronavilkku app to easier map potential exposure and control the spread of Covid.
- If the app alerts, follow the info given by your health provider.
- Plexiglas improves the safety of visiting the office. Remember the two-meter distance while visiting the office.
- Social distancing in the classrooms is ensured by limiting the number of students and by placing tables and mats at safe distance.
- Dress at home in gym clothes before attending gym classes, if possible.

Lesson arrangements

We have planned special arrangements for the classes, and prepare for moving most classes online if so ordered.

If classroom teaching is interrupted, we will e-mail you. Check your e-mail regularly because changes might happen quickly. Please ensure we have your current info.

We also inform of changes on the city's website.
